

Experience

Research Assistant

Xi'an Jiaotong University, AI Department | Jun 2026 – Aug 2026

- Defined the evaluation principle for AI-driven 2D-to-3D relief generation by surveying sculpture and inducing 5 feature dimensions (semantic, geometry, multi-view, style, physical), then formalized them into a weighted scoring scheme with group.
- Built a 28-image cross-domain benchmark and a mesh-comparison harness in Python to evaluate depth backbones including Depth Anything V2, Depth Pro, and Marigold. Authored research framework and research conclusion presentation, showcase achievements at the 2026 XJTU AI Summit.

Founder

AI Personal Career Assistant | Jun 2026 - Present

- Built an AI assistant product from idea to Demo 1: identified the core pain point through market research, then defined the product proposal, feature scope, and roadmap.
- Architected the demo end to end, defining the front-end/back-end interface contract and coordinating parallel development to ship the first working prototype in 4 weeks. Now running demo 1 test.

Office Director

ASUCD Office of International Student Representative | Sep 2025 – Jun 2026

- Governed a 16-member team to establish the International Student Senate, accomplishing a formal advocacy platform that addressed cross-cultural concerns with university leadership.
- Mediated bi-weekly student forums to identify critical pain points, securing a 30% increase in student government funding through data-driven proposals.

UX Design Manager

UC Health | Oct 2025 – Jan 2026

- Aligned project scope with the supervisor, designed a 3-month timeline, and led 3 team members through weekly check-ins, separate tasks into literature review, user testing, and front-end implementation. Reported progress upward to ensure on-time delivery.
- Re-mapped site content around treatment-cycle logic, converting static text into click-to-expand modules and visualizing complex cycles. Guided the team to meet WCAG accessibility standards.

UX Research

Capitol Creative Alliance | Oct 2025 – Mar 2026

- Ran post-conference satisfaction surveys across 6 events (30–50 attendees each) over 6 months, visualizing feedback into data charts to identify key pain points, then proposed and implemented iteration plans for each subsequent event.

Founder

Nanjing Student Photography Alliance | May 2022 – Present

- Founded a city-wide creative network of 400+ members, accomplishing 10,000+ visits to a custom platform. Negotiated strategic sponsorships with SONY and DJI to organize technical seminars and city-wide competitions.
- Refined the competition submission process by analyzing participant surveys, measured by a 85% increase in entries in the following year.

Summary

Combining market needs, user experience, and project management to achieve impactful goals.

Education

University of California, Berkeley

Bachelor of Science, Cognitive Science

Bachelor of Arts, Art Practice

Expected Graduation Date: 2028 Fall

Projects

2026 marketing, full-stack design

Founder of start up (AI desktop pet, AI career assistant, personal AI agent)

2026 AI research, academic writing

Research Assistant at XJTU for 2D to 3D convention

2025 user test, front-end design

UX design for VR interface, website, application

2025 group management

Internship at UC Health

2025 event planning, outreach

Career Event host at ASUCD, Project Manager of UC Davis Chinese new student Ceremony

Skills

Technical: Python, JavaScript, P5.js, Webflow, CSS, HTML.

Research: User Interviews, Usability Testing, Data Visualization, Marketing, Qualitative Research.

Design Tools: Figma, Adobe.

Collaboration: Google Workspace, Notion.

Languages: English (Professional), Mandarin Chinese (Native), Cantonese (Elementary).

Others: Github, AI Tools, Server.
